

MODERN MEETS CLASSIC

AMF
www.AMF300.com

We love bowling as much as you do, and like most people we've got our All-Time favorites tucked away for special occasions...

That's our inspiration for the new Night Hawk Special Edition; take a ball reaction from the past everyone loved and give it that *Special Edition* touch to match today's lane conditions.

With an updated coverstock, sharp looking black hybrid color and NEAT "T" Pad finish, the Night Hawk SE is going to provide that controlled and predictable motion off the spot every competitive bowler needs.

This isn't your dad's Night Hawk, but it will certainly make him feel nostalgic.

Night Hawk SE™
